

Completion of the Java-Bali Crossing 150kV Substation Upgrading Programme

Omexom extends and upgrades 11 high voltage substations scattered across East Java and Bali.

Over the period of 2 years Omexom Indonesia (Vinci Energies) carried out extension and upgrading works for 150/20kV transformer bays in 11 high voltage substations scattered across East Java and Bali, Indonesia. This substation upgrading programme undertaken on behalf of PLN and completed in September 2018 was financed by the Asian Development Bank (ADB)
