

The First 150kV High Voltage in North Maluku

Omexom Indonesia has energized North Maluku’s first 150kV high voltage system

Omexom Indonesia’s teams (Vinci Energies Indonesia) have recently completed the commissioning works for the first 150kV system on Ternate, North Maluku’s island with the Province’s largest city. This new high voltage system will help strengthen the electrical Grid to support Ternate’s economic development.

Omexom Indonesia executed the full EPC works for two 150kV substations in Ternate, one AIS substation and one GIS substation.
